

INSURANCE For Real Estate Professionals

Introducing RE

The real estate industry is risky and your clients need protection. In a constantly changing market, claims happen. Our RE program offers flexible payment options, optimal customer support and complete risk management services so that you and your clients are protected from every angle.

Coverage designed to work with your budget

Broad coverage comes with a cost. Most E&O plans cover brokers and agents for policies that are unnecessary, but we create flexible, cost efficient plans that only cover the activities that your clients conduct.

Additional coverage options

- Contingent Liability (Open House/Personal Injury, no time limit)
- Seller Protection Plan (available in most states)
- Agent Owned Property Coverage
